- Proficient in user interface and user experience design.

EXPERIENCE

Deseret Book • Salt Lake City, UT

Web Developer

Apr 2016 - Present

Maintained multiple consumer facing sites using Ruby on Rails and AngularJS. Improved database structure and optimized caching using Redis, reducing server latency by more than 85%.

Starry Night Studios, LLC • Centerville, UT

Co-Founder

Feb 2014 - Present

Helped design and implement web solutions based on client needs and demands. Projects ranged in scale from Wordpress websites, to medium sized web applications. Helped in critical decision making and focused on front-end development needs.

IDFL Laboratory and Institute • Salt Lake City, UT

Software Developer

May 2014 - Apr 2016

Junior Software Developer

Jan 2013 - Apr 2014

Worked as a full-stack developer using Django, and AngularJS. Helped design, and develop new internal and external systems. Maintained and implemented new features in legacy Django system. Lead design and development of client tools with a focus on providing user-friendly solutions to complex business processes.
